2011 GMC ACADIA

GMC
ACADIA

THE PROFESSIONAL GRADE CROSSOVER.

At GMC, we engineer all our trucks, vans, SUVs and crossovers to a higher standard. As a result, our Acadia performs without the compromises other crossovers require. There's abundant space for up to eight adults in the well-appointed cabin. And when you need to haul serious cargo, Acadia reconfigures easily to help get the job done. The 288-horsepower 3.6-litre DOHC V6 engine puts performance at your disposal, yet Acadia consumes a mere 8.4 litres of fuel per 100 kilometres on the highway.* Acadia drivers also enjoy the assurance of the best coverage in Canada, including a 5-year/160,000 kilometre limited powertrain warranty. There's even a range of models to help you choose the one that best suits your needs, including a choice of front or all-wheel drive and the new luxurious Acadia Denali. The 2011 Acadia from GMC. Why settle for less than professional grade?

* 2011 Acadia FWD fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Your actual fuel consumption may vary. For more information go to **gmc.gm.ca**

READY FOR ITS CLOSEUP.

With its powerful stance and graceful lines accented by just the right amount of brilliant chrome, Acadia is contemporary family transportation at its most attractive. Acadia continues to impress on close inspection, too, thanks to details like tight panel gaps, sculpted projector-beam headlights and fast-illuminating LED tail lights. Even more important, the Acadia body is as functional as it is beautiful. More than 5000 hours of refinement in the wind tunnel have resulted in a drag coefficient of just .344. That means you enjoy a hushed highway ride and improved fuel efficiency.

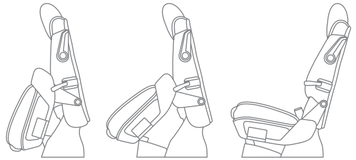
ACADIA SLT-2, shown in Quicksilver Metallic.

YOU DESERVE AN UPGRADE.

No matter which Acadia model you choose, you'll enjoy a ride that's a considerable step above the ordinary. Acadia's long wheelbase and wide track dimensions contribute to a spacious, open cabin. A low step-in height makes it easy to enter and exit, and thanks to the standard SmartSlide second-row seating, accessing the third-row seat is a breeze. The amenities are both intelligent and sophisticated and range from a standard tire pressure monitoring system to an available rear DVD entertainment system featuring stunning Bose® 5.1 surround sound audio. The result is a stylish and extremely comfortable driving environment that defines first class.

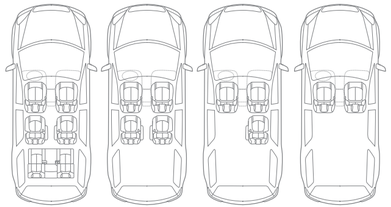
SMARTSLIDE SEAT

All Acadia 2nd-row seats include a SmartSlide feature that allows them to be moved forward for easy access to the 3rd-row seats. As the seatback slides forward, the rear edge of the seat cushion automatically moves up and forward to provide extra space.



SEATING CONFIGURATIONS

When you need to carry large cargo – or a combination of passengers and cargo items – reconfiguring Acadia's interior is a very simple matter. All 2nd- and 3rd-row seatbacks fold flat to create a convenient and practical load surface. In fact, Acadia has 30% more maximum cargo capacity than Honda Pilot.*



*Competitive information based on 2010 Model Year and latest published information available at time of printing.

ACADIA SLT-1 interior, shown with Light Titanium leather-appointed seats and other available equipment.

ACADIA DENALI: IT SUITS YOUR STYLE.

Named after North America's tallest mountain, Acadia Denali is the pinnacle of crossover style. Premium details abound, including chrome-clad 20-inch wheels, unique body-colour front and rear fascias, fender flares and rocker panel treatment. And, of course, the signature Denali honeycomb upper and lower grilles. Best of all, Acadia Denali delivers this premium presence without sacrificing a thing in terms of performance, versatility or efficiency. So it suits your needs, as well as your style.

DENALI FEATURES

Includes all of the premium equipment features of the Acadia SLT-2 plus:

- All-wheel drive
- Signature Denali honeycomb grilles
- Unique lower front and rear fascias
- High-intensity discharge (HID) headlights
- Body-colour lower cladding and rocker mouldings
- Body-colour rear fascia and fender flares
- Unique bodyside mouldings with chrome accents and Denali badges
- Denali-specific dual chrome exhaust tips
- 20" chrome-clad aluminum wheels with black chrome spoke inserts
- P255/55R20 H-rated tires.

ACADIA DENALI, shown in White Diamond Tricoat.

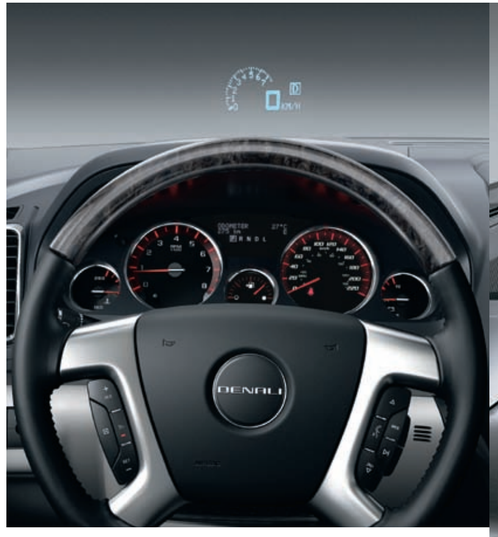
ACADIA DENALI: SOPHISTICATION TIMES EIGHT.

If you're looking for contemporary luxury in a seven- or eight-passenger crossover, Acadia Denali is a must-drive vehicle. The ride is controlled, comfortable and quiet. The cabin is trimmed in fine quality materials, including leather and genuine mahogany wood accents. And because Acadia Denali was developed by the engineers at GMC, it also features the best of integrated technology, such as an aircraft-inspired Head-Up Display (HUD). It projects key information on the inside surface of the windshield to keep you informed without distracting you from the road ahead.

DENALI FEATURES

Includes all of the premium equipment features of the Acadia SLT-2 plus:

- Perforated-leather seating surfaces with matching leather door panel trim
- Heated and cooled driver and front-passenger seats
- Leather-wrapped steering wheel with mahogany wood inserts
- Genuine mahogany woodgrain accents on instrument panel and centre stack
- Premium acoustic dampeners – laminated glass and liquid-applied sound deadeners
- Lighted chrome sill plates with Denali logo
- Dual SkyScape sunroof system, with sliding front sunroof and fixed rear section
- Head-Up Display (HUD) instrumentation
- Rear cargo area sound system controls.



Premium features that provide an unsurpassed driving experience abound within Acadia Denali.

ACADIA DENALI interior, shown in Light Titanium.

CONFIDENCE IS HIGH.

Acadia is engineered to protect you and your loved ones in three distinct ways. First, there are the many systems – like the standard StabiliTrak® electronic stability control – that help to keep you in control. Next come Acadia's six standard air bags, front and rear crush zones and steel safety-cage construction, all of which are designed to come to your aid if a crash is unavoidable. Finally, there's OnStar®.* If sensors in your Acadia indicate that a collision has taken place, an OnStar advisor can send help to your location automatically, even if you're unable to respond to their call.

ONSTAR: INDISPENSABLE FOR SO MANY REASONS

For millions of people across North America, OnStar* is making driving safer, more convenient and more enjoyable. It's a revolution in driving, and it's standard on every Acadia, along with 6 months of the Directions & Connections Plan with Turn-by-Turn Navigation. Check out some of the remarkable services OnStar can perform for you.

STOLEN VEHICLE ASSISTANCE

OnStar can help recover your Acadia if it's stolen. OnStar can use GPS technology to locate your Acadia and track its movements. That information is relayed to authorities who can use it to recover your Acadia quickly and safely.

REMOTE VEHICLE DIAGNOSTICS

To help you keep your new Acadia in peak condition, OnStar can automatically run hundreds of diagnostic and maintenance checks every month. You receive a finished report promptly via email.

TURN-BY-TURN NAVIGATION

OnStar's Turn-by-Turn Navigation is the most user-friendly navigation system available. You simply tell an OnStar advisor where you want to go. Clear, audible directions to your destination are then downloaded to your Acadia. Turn-by-Turn Navigation will even help get you back on track automatically if you take a wrong turn.

HANDS-FREE CALLING

In more and more jurisdictions, hands-free calling is the law. OnStar's built-in wireless calling feature makes it easy to make mobile calls the safe way. It also provides a convenient and reliable connection, even in areas where cellular reception is limited.

AUTOMATIC CRASH RESPONSE

Should your Acadia's crash sensors detect a collision, the vehicle immediately notifies the OnStar Centre. An OnStar advisor will attempt to connect with you to see if you need help. Even if you don't respond, the advisor can determine your exact location via GPS and dispatch emergency services.

EMERGENCY SERVICES

A priority connection to get help sent to your exact location.

* Visit onstar.ca for coverage map, details and system limitations. Services vary by model. OnStar acts as a link to existing emergency service providers.

AIR BAGS

Acadia features frontal air bags and seat-mounted side-impact air bags for the driver and front passenger, with roof-mounted head curtain side-impact air bags, that provide protection for all outboard seating positions.**

** A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Refer to the vehicle Owner's Manual and child safety seat instructions for more information.

BODY-FRAME ARCHITECTURE

Compared with SUVs that use separate ladder frames, Acadia's advanced body-frame integral architecture provides a lower step-in height, more refined, car-like ride and handling and reduced overall vehicle weight for improved fuel efficiency.

HIGH-STRENGTH STEEL

Ultra-high-strength steel – 4 times stronger than regular carbon steel – is used extensively for primary load paths in the Acadia body-frame architecture. Dual-phase steel, which is 3 times stronger than carbon steel, is used in other key areas. Benefits of these advanced materials include increased structural rigidity and superior crash protection.

STABILITRAK

Electronic stability control has been proved to reduce fatal single-vehicle crashes in light trucks by a remarkable 63 percent.† StabiliTrak electronic stability control is standard on every Acadia model.

† According to information published by the US Department of Transportation's National Highway Traffic Safety Administration, July 2007.

TIRE PRESSURE MONITORING SYSTEM

Acadia's standard tire pressure monitoring system constantly checks the inflation of each tire (excluding the spare) and alerts you via a message in the Driver Information Centre any time it senses that a tire requires attention.

TECHNICALLY, IT'S BRILLIANT.

What happens when you unleash GMC's obsessive truck engineers on a crossover? They endow it with some of the most sophisticated automotive technologies on the planet. Under the hood, Acadia features a high-tech V6 with direct fuel injection, Variable Valve Timing (VVT) and more. You enjoy substantially more power than Honda Pilot*, along with better highway fuel efficiency.** Acadia's technological edge continues inside the vehicle, too. Bluetooth® phone connectivity, ultrasonic rear park assist and a rearview camera system are all standard on all models except Acadia SLE-1. For your entertainment, standard XM Satellite Radio™† offers a host of channels and crystal-clear digital sound. You can even spoil your second- and third-row passengers with an available rear DVD entertainment system complete with an overhead LCD display.

* Competitive information based on 2010 Model Year and latest published information available at time of printing.

** 2011 Acadia fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on Natural Resources Canada's 2010 Fuel Consumption Guide. Your actual fuel consumption may vary.

† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

BLUETOOTH

Acadia's available Bluetooth phone connectivity feature lets the vehicle link to your Bluetooth-enabled mobile phone so you can make and receive calls hands-free.

REARVIEW CAMERA SYSTEM

Acadia's available rearview camera system helps you back up in greater safety. With the transmission in Reverse, it automatically displays an image of the area directly behind the vehicle in the rear-view mirror, or on the available navigation screen, if so equipped.

XM SATELLITE RADIO

What's a drive without your favourite tunes? GMC believes music and other programming are integral to your driving experience. That's why XM Satellite Radio† is standard on every Acadia. It lets you tune in to the largest playlist on the planet and the most commercial-free music in digital-quality sound, with coverage from coast to coast. It gives you up to 130 channels to choose from – everything from a vast range of musical genres, to news, talk, comedy and sports channels – including more than 1000 NHL games. Already enjoyed by more than 9 million subscribers – are you next? Ask your dealer for more information.

ACADIA SLT-2 interior, shown with available DVD entertainment and navigation systems.

LIFE DEMANDS VERSATILITY.

It's said that in modern life, change is the only constant. Fortunately, Acadia is designed to handle life's varying challenges with grace and style. One minute, the stylish cabin may be transporting up to eight people in comfort. The next it might be handling a best-in-class 3282 litres of cargo.* Loading and unloading are a breeze, thanks to the available rear power liftgate and the low rear liftover height. Acadia's standard roof rails make it a simple matter to attach a variety of racks and cargo boxes when you need to transport bicycles, snowboards and other gear. And for the really big jobs, like getting the boat to the lake, Acadia is rated to tow up to 2359 kg (5200 lb.)** – the most of any vehicle in its class.*

* Based on Ward's 2010 Large Cross/Utility segmentation and latest published competitive information available at time of printing.
** Requires available Trailer Towing Package.

LOW STEP-IN AND LIFTOVER HEIGHT

Body-frame integral construction allowed the Acadia engineers to eliminate the separate frame rails found in traditional SUVs. That means a reduced ride height, more convenient access to the passenger compartment and a lower rear liftover height.

REAR POWER LIFTGATE

Acadia's rear power liftgate raises and lowers at the touch of a button – a handy feature when your hands are full. It's standard on Acadia SLT-2 and available on Acadia SLT-1.

ACADIA SLT-2, shown in Red Jewel Tintcoat with available equipment.

ACADIA MODEL OVERVIEW

For 2011, Acadia is offered in a choice of five attractive models. To help you find the one that's just right for you, some of the major features that differentiate one Acadia model from another are listed below.

ACADIA SLE-1

The following features are standard on Acadia SLE-1:

- 288 hp 3.6L DOHC V6 engine with Direct Injection and Variable Valve Timing (VVT)
- Best-in-class towing capacity of up to 2359 kg (5200 lb.) when equipped with Trailer Towing Package*
- GM Oil Life Monitoring System
- 6-speed automatic transmission
- 4-wheel disc brakes with ABS and Panic Brake Assist
- StabiliTrak electronic stability control system
- Traction control
- 4-wheel independent suspension
- Dual exhaust chrome tips
- 18" painted aluminum wheels
- Tire pressure monitoring system
- Silver painted roof rails with black end caps
- Power exterior mirrors, black
- Black bodyside mouldings
- Remote keyless entry system
- 6 air bags
- Air conditioning
- Power windows and door locks
- Tilt and telescoping steering column
- Cruise control
- Manual 4-way driver's seat adjuster with 2-way lumbar adjuster
- 8-passenger seating with SmartSlide flat-folding 2nd-row 60/40 split-bench seat
- 6-speaker sound system with CD player, MP3 playback and auxiliary audio input jack
- XM Satellite Radio**
- OnStar† and 6 months of the Directions & Connections Plan with Turn-by-Turn Navigation.

ACADIA SLE-2

Acadia SLE-2 includes the equipment of Acadia SLE-1 plus the following features and upgrades:

- Heated, power exterior mirrors, body-colour with integral turn signals
- Body-colour bodyside mouldings
- Fog lights
- Ultrasonic rear parking assist
- Rearview camera system
- Remote vehicle starter system
- Power 6-way driver seat adjuster
- Power 2-way front-passenger seat adjuster
- Leather-wrapped steering wheel with sound system controls
- Auto-dimming interior rear-view mirror
- Bluetooth phone connectivity.

ACADIA SLT-1

Acadia SLT-1 includes the equipment of Acadia SLE-2 plus the following features and upgrades:

- Variable-assist power rack-and-pinion steering
- Chrome beltline moulding
- 19" machined aluminum wheels
- Enhanced Driver Information Centre with exterior temperature and compass display
- Tri-zone automatic climate control with individual settings for driver, front-passenger and 2nd/3rd-row controls for rear-seat passengers
- Heated leather-appointed seating surfaces for driver and front passenger
- SmartSlide 2nd-row captain's chairs
- Universal home remote transmitter
- Bose 10-speaker premium sound system
- USB port for iPod®/MP3 player
- Rear-seat audio controls.

ACADIA SLT-2

Acadia SLT-2 includes the equipment of Acadia SLT-1 plus the following features and upgrades:

- High-Intensity Discharge (HID) low-beam headlights
- Heated, power folding exterior mirrors, body-colour and auto-dimming driver's side mirror
- Power rear liftgate
- Power 8-way driver seat adjuster with power lumbar
- Memory settings, 2-position for driver seat and exterior rear-view mirrors
- Power 4-way front-passenger seat adjuster with power lumbar
- 115-volt power outlet located in front-row centre console
- Express up/down driver's window and express-down front-passenger window
- Trailering equipment package with heavy-duty cooling system.

ACADIA DENALI

Acadia Denali includes the equipment of Acadia SLT-2 plus the following features and upgrades:

- All-wheel drive (AWD)
- Unique lower front and rear fascias
- Denali-specific signature honeycomb chrome grille
- Body-colour lower cladding and rocker mouldings
- Body-colour rear fascia and fender flares
- Unique bodyside mouldings with chrome accents and Denali badges
- Denali specific dual chrome exhaust tips
- 20" two-tone chrome-clad aluminum wheels with black chrome spoke inserts
- P255/55R20 H-rated tires
- Perforated leather seating surfaces with matching leather door panel trim
- Heated and cooled driver and front-passenger seats
- Leather-wrapped steering wheel with mahogany wood inserts
- Genuine mahogany woodgrain accents on instrument panel and centre stack
- Premium acoustics - laminated glass and liquid-applied sound deadeners
- Lighted chrome sill plates with Denali logo
- Dual SkyScape sunroof system, with sliding front sunroof and fixed rear section
- Head-Up Display (HUD) instrumentation
- Rear cargo area sound system controls.

* Based on Ward's 2010 Large Cross/Utility segmentation and latest published competitive information available at time of printing.

** Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

† Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions.

UNMISTAKABLY YOURS.

Genuine GMC Accessories are the best way to take your new Acadia's exceptional style, performance and versatility to an even higher level. To ensure outstanding fit, finish and performance, all GMC Accessories are engineered to the same high standards as your Acadia. That's why they can be covered under the 3-year/60,000 km New Vehicle Limited Warranty.* When you purchase your new Acadia your GMC Accessories can also be included in your finance agreement. Ask your dealer for a complete listing of the GMC Accessories to help you make your Acadia unmistakably yours. Or visit gm.ca

* Whichever comes first, when permanently installed by the dealer at the time you purchased your new vehicle, or for the remainder of the New Vehicle Limited Warranty if installed after the time of your vehicle purchase, but no less than 12 months.

S – Standard.
O – Optional individually or in combination with other optional equipment.
1 – Included with upgraded audio system.
2 – Included with available DVD entertainment system.
3 – Included with available Vehicle Interface Package.
4 – Leather-appointed seats on front- and 2nd-rows only, 3rd-row is vinyl.
5 – Includes rear-seat audio controls and tri-zone automatic climate control.
6 – Includes 115 volt AC 3-prong outlet in rear of front-row centre console.
7 – Rearview camera and compass are integrated into navigation display. At time of printing, detailed map coverage is available for most urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is limited outside these areas.
8 – Requires available power liftgate.

* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions.
** All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.
† Available in 10 Canadian provinces and 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.
†† When properly equipped. Trailer towing capacity is the weight of the trailer, its load or contents plus any other weight added to the tow vehicle. Optional equipment, passenger or cargo will reduce trailer towing capacity. All towing recommendations are subject to change. Trailer tongue load should be 10% of the maximum trailer weight but should not exceed the load rating specified for the vehicle, engine or hitch combination. Many trailer towing applications require additional optional equipment. See your dealer or refer to the Acadia Owner's Manual for details. For more information on trailer towing go to gm.ca

PEACE OF MIND, STANDARD WITH EVERY GMC MODEL

When you build them with quality, you can back them with confidence. That's why General Motors of Canada backs every GMC model with the best coverage in Canada. Program highlights include:

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, GMC, Acadia and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as StabiliTrak are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.
